Dear Katie

3G Ltd are a high quality company supplying mobile communications to businesses all over the UK. Our clientele demand a high level of service and support. We are able to deliver this because of the high quality suppliers 3G Ltd chooses for its own operations.

As such I would like to take this opportunity to thank you for the way you helped us and me particularly as Managing Director focus on what we needed to do in order to be more effective in our business.

I particularly like the way in which you used your skills to help us identify what actually needed to be done rather than tell us what to do.

As a business man I am mainly results driven and I want to say that after working with you we have been able to increase effective selling time along with reducing time spent on administration and needless functions. This has caused us a direct increase in turnover and more importantly profitability. Figures for the first quarter of 2005 showing profit up by 30% or more.

One final comment is that I have been able to use the techniques you showed us in my personal life with huge benefits for me and my family.

I hope our relationship continues for the foreseeable future and I have no hesitation in recommending you at every opportunity as a business professional that can definitely help any business regardless of activity or size.

I wish you well for the future and thank you again.

Yours sincerely
